The Agility Course Test (ACT) is an entry level agility event designed to introduce and welcome beginning dogs and their handlers to the AKC sport of agility. It is a great way for owners to bond with their dogs and teach discipline. In addition to demonstrating their dog's entry level skills, handlers will now learn some of the sport's basics like how to fill out an AKC entry form, check-in at the ring, take their dog in and out of ring, handle their dog while being judged and other skills that will help them when they move on to

AKC agility trials with their dog. There are two levels of ACT events – ACT1 and ACT2.

- ACT1 is designed for the beginner level dog to show beginning sequencing and performance skills.
- ACT2 requires an increased skill level shown by the additional obstacles to be performed.

Any person with a dog that is 15 months old or older that meets the requirements for a regular agility trial can enter these events (requirements available on akc.org). They do not need to be AKC registered at the time of entry. The dog cannot have achieved any AKC Agility title.
